Hi Misty!

So I had a meeting with CD1 today and they are interested in moving forward on a neighborhood signage project with the Neighborhood Council and with the BID. I also met with the Los Angeles Neighborhood Initiative. They provided me with some fantastic designs which you may have already be familiar with (see attached PDF file). Melinda mentioned that it might be easier and more cost effective to install just the sign component from the images directly below onto one of the existing poles on Figueroa near the CD1 office. She even thought that there might be certain poles that might belong to the BID and with an MOU we could get this done. Do you know anything about that?

The Neighborhood Council has until May/June to allocate funds for this project so I'd love to get the ball moving on this as soon as possible. Let me know your thoughts. We can meet in person if you'd like to discuss in-depth. Would love to have your input before our next Beautification Committee Meeting on 2/10/15 (not yet announced).

Thanks!
Aaron Salcido

Subject: Beautification Committee Meeting 10/30 6pm Draft Agen

Hi Everyone,

I have booked the community room at the Arroyo Seco Library for this Thursday, October 30th at 6pm for a Beautification Committee Meeting. I realize the early time is a hurdle for some, but we are limited with options as the library closes at 8pm and there are few other places that can hold a group as large as ours. Please plan on joining us at any time of the evening as your schedule allows.

Attached is a sample draft of the agenda. I will be posting it around town tomorrow evening and emailing the NC Google Group. Please have any suggestions or revisions to be before 3pm tomorrow when I'll be printing them out.

Looking forward to seeing you all then!

Thanks,

Aaron Salcido
